

2021 Jersey Shore Haven Pool Guidelines for Campers

Hello everyone. The Pool will be open this season with the following guidelines that we all must follow. The goal is to stay safe while we enjoy the pool and the camaraderie that comes with it. There are just a few things that we all must do to stay safe and stay compliant with local health regulations and CDC guidelines.

1. If you feel ill, or have a fever, please do not come to the pool to expose others.
2. All patrons must sign in before entering the pool deck area. A new signup sheet will be provided each day, and we all must sign in each day. This is important to be compliant with local health regulations, but also important in case someone does get sick, management can trace who was exposed to the individual who became ill and notify them.
3. Patrons will need to maintain social distancing on the pool deck. The CDC recommends wearing a mask while on the pool deck.
4. Patrons will need to spray down the pool chairs and tables with disinfectant after use. Disinfectant spray and paper towels will be provided.

That's it! Let's enjoy the pool this year! Stay safe!
